WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Plate 474 x 302 mm with two windows (400 x 152 and 400 x 42 mm).

Two rows of slots: the lower yoke's tabs 9 mm up from the bottom edge and the upper yoke's tabs 212 mm up, with bolt holes between.

Each side edge: two tabs and a T-slot into the bed rail.

Two 9 mm holes 220 mm each side of the centre, 214 mm up: the box bolts.

T-slot: 9 mm wide, 23 deep, with a 13.6 x 8.4 mm window 10 mm in for the nut.

Fit: square across the bed between the rails; the yokes come in from behind, the box sits 9 mm in front on spacer washers.

Check: the plate is flat within 1 mm after deburring.
